

Sisanda Manjanja

Junior Software developer

Bellvile south, CPT| manjanjasisanda@gmail.com | 0671644851

EDUCATION:

NELSON MANDELA UNIVERSITY 2018-2022

National diploma information
technology-software development

CERTIFICATION:

Microsoft AI Fluency Certification

Fullstack software developer-Capaciti in
collaboration with ABSA

TECHNICAL SKILLS:

Languages:

C#, JavaScript, Python, Java, SQL,
Typescript

Frameworks & Technologies:

ASP.NET, .NET Framework, React.js,
Node.js, HTML5, CSS3, RESTful APIs

Databases:

SQL Server, MongoDB, MySQL

Tools & Platforms:

Git, Azure, AWS, VS Code, Visual Studio,
Github

Development Practices:

Agile, Scrum, Kanban, REST APIs, AI-
Assisted workflows, Version control,
Debugging and Troubleshooting

SUMMARY:

Frontend Developer with 18+ months of hands-on experience in software development, building and maintaining web applications using JavaScript, HTML, CSS, and modern frameworks such as React within full-stack environments. Strong foundation in TypeScript and C# from academic training and real-world projects through Capaciti (in collaboration with ABSA), with exposure to ASP.NET and RESTful API integration.

Experienced in working within Agile, remote engineering teams, contributing to both frontend and backend features, debugging complex UI issues, and improving application performance and user experience. Detail-oriented problem solver with a passion for writing clean, scalable, and maintainable code. Certified in Full-Stack Development and AI Fluency (Microsoft).

EXPERIENCE:

SOFTWARE DEVELOPER Capaciti

2023 - JAN 2025

- Developed and maintained responsive internal and client-facing web applications using JavaScript, C#, ASP.NET, HTML, CSS, and SQL Server.
- Built and enhanced user-focused frontend features, improving application usability, responsiveness, and overall user experience.
- Integrated and worked with RESTful APIs for data handling, system communication, and application functionality.
- Collaborated within agile and remote-friendly development environments using Git, version control, and sprint-based workflows.
- Performed debugging, software testing, troubleshooting, and code reviews to ensure application reliability and performance.
- Assisted with database management, query optimization, and backend functionality using Entity Framework and SQL Server.
- Contributed to UI improvements and frontend optimization while supporting scalable and maintainable web solutions.
- Adapted quickly to new technologies, AI-assisted workflows, and evolving project requirements in fast-paced development environments.

PROJECTS

Personal Portfolio Website

- Built a responsive personal portfolio using HTML, CSS, JavaScript, and Netlify deployment.
- Showcases software development projects and technical skills.

Interactive Web Applications

- Developed interactive front-end applications with animations, multimedia integration, and dynamic JavaScript functionality.
- Focused on improving user experience and responsive design.
